PROFESSIONAL EXPERIENCE

KPMG Professional Services – Lagos, Nigeria

Associate Software Engineer | Full-time, Hybrid | Sep 2023 – Present

- Led a team of four engineers in developing and maintaining the **Payroll Platform** and **Smart Tax Admin** using **React**, **TypeScript**, **JavaScript** and **Tan Stack** libraries.
- Designed and implemented reusable components using **Storybook** that improved UI consistency and reduced development effort across applications.
- Implemented **Figma** designs for editable tables, role-based workflows, document review processes, infinite scrolling datasets, and real-time collaboration features.
- Optimized existing internal applications like **Tax Orbit**, **TDQ**, **VAT Validation Engine** by refactoring components and responsiveness.
- Integrated backend APIs using **React Query** and migrated server-state management from **Redux** to **React Query**, enhancing caching, synchronization, and application performance.
- Refactored legacy codebases and optimized repository structures within **GitHub** workspaces, improving code organization, developer onboarding, and cross-project collaboration.
- Participated in code reviews, Git-based workflows, and release processes to maintain code quality and deployment reliability.
- Utilized AI-powered development tools including Cursor AI and Claude AI to improve development efficiency, code generation, debugging, and documentation workflows.
- Wrote and maintained unit tests using **Jest** to validate component behavior, business logic, and application reliability.

Stack: React, TypeScript, JavaScript, Tailwind CSS, TanStack Query/ Tables, Redux, Git, GitHub, Radix UI, Base UI, Jest, Storybook

Bexxle Technologies– Lagos, Nigeria

Frontend Engineer | Contract, Remote | Jan 2023 – Jan 2024

- Built responsive client applications using **React**, **Next.js**, **TypeScript**, **Chakra UI**, and **Tailwind CSS**.
- Developed reusable UI components and optimized application performance for improved user experience.
- Collaborated with designers and backend developers to implement scalable frontend solutions and deliver new product features.
- Applied SEO-friendly development practices and responsive design principles to improve website accessibility and discoverability.

Stack: Next.js, Typescript, Tailwind CSS, React, Chakra UI,

TECHNICAL SKILLS

Core: React, TypeScript, Next.js, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3, Node.js, REST APIs

UI: Shadcn UI, Chakra UI, Base UI, Responsive Design, Component Architecture, Accessibility (WCAG)

Tools: Git, GitHub, Gitflow, CI/CD, Agile Development, Code Reviews MongoDB, Cursor AI, Claude Code, AWS Lambda, Serverless Framework

PERSONAL PROJECTS

XTracker - Full Stack Expense Tracking Application

Tech Stack: React, TypeScript, Node.js, MongoDB, AWS Lambda, Chakra UI

- Designed and built a full-stack application using **React** and **Node.js**
- Developed **RESTful APIs** and handled data persistence with **MongoDB**
- Deployed using **AWS Lambda** and serverless architecture
- Implemented core features including data tracking, state management, and **API** integration
